## PROJECTS AND RESEARCH

**Deep-Learning Based Plant Disease Detection**(Python, TensorFlow, Supercomputing Center, Slurm/PBS scheduler):

- Awarded \$5500 scholarship by proposing an image-based deep learning approach and application framework design for plant leaves disease detection.
- Compared pros and cons of approaches between machine learning and deep learning-based detection.
- Conducted sequences of experiments on multiple factors including train-validation split ratio, batch size, and complexity size of pre-trained models, which resulted in 99.5% and 98.11% accuracy in training and validation respectively.
- Completed "Honors Research Distinction" thesis by authoring and presenting multiple deliverables works of literature, including over 70+ pages thesis, presenting a poster in two research forums, and oral defense presentation.

**Filmpedia -- Movie Recommendation Website** (Python, Django, React.js, Docker, Heroku, Travis CI):

- Coordinated with three other senior students to develop a dynamic movie recommendation website by using Django as backend and React.js as frontend.
- Accomplished various useful features including user and movie database, routes configuration, multi-languages support, movie recommendation, and searching by leveraging IBM Cloud Platform and TMDb RESTful APIs.
- Achieved automated deployment by containerizing the application with Docker and launching via Heroku.

**Multi-threaded MapReduce Emulator** (Multithreaded programming, C, makefile, Valgrind):

- Created and implemented a multi-threaded version of MapReduce Emulator for counting the number of occurrences of words for a given file, which potentially can be used for search engines or web crawlers in text processing.

**"CORE" Language Interpreter** (python, kernel of interpreter):

- Implemented a self-defined "CORE" language interpreter from scratch, with features including program scanner/tokenizer, semantic checking(syntax, type, function definition, scope, object binding), program executor, garbage collector, and recursive function call.
